

Project long term vision

The project vision is based on the assessment that Kosovo needs to address the country-wide unemployment, situation which shows that more than a half of all youth are facing long-term unemployment.

The project will be implemented from 2013 to 2015. Future extension will be based on a mid-phase review.

Project outcomes and targets

The project will be implemented by a team of 4 local project staff, as well as project facilitators and service providers engaged by the project in the focus areas. This local management and implementation is key aspect of ensuring the project outcomes and sustainable beyond the direct interventions of S4RE.

OUTCOME 1: S4RE will stimulate & support groups of young unemployed to develop locally demanded technical, entrepreneurial & life skills.
TARGET: Unemployed youth aged 16 to 30.

OUTCOME 2: S4RE will collaborate with existing businesses to develop targeted training programmes that aim to improve productivity, employment, and employment conditions.
TARGET: Existing businesses and self-employed.

OUTCOME 3: Supply chain integration through skills development of small enterprises in the two focus areas with national and regional companies

will improve self-employment opportunities.

TARGET: Self-employed or SME producers

OUTCOME 4: S4RE will support locally available service providers to offer skills and training services that are more strongly based on practical training and private sector linked activities, and are complementary to the formal VET system.

TARGET: Training and skills providers.
